Many a costly home and its surroundings have been robbed of their beauty and transformed into an incubator that breeds disease bearing insects, from no other cause except neglect. On the other hand, there are small cottages there and there throughout the country that are noted for their beauty, attractiveness and health abode because the owners clean and keep clean.—Laurensville Herald, on clean-up-day. Well and truly said.

## Music Recital.

The recital at the High school last Friday evening by the piano pupils of Miss Bess Kibler, assisted by the voice pupils of Mr. Robert E. Allen, was a great success.

In spite of the inclement weather many patrons and friends were present to enjoy the program.

Some of the numbers, both piano and vocal, were delightfully rendered and would compare favorably with selections sometimes given on college programs.

In fact, all the participants did well, especially so considering that the electric lights repeatedly failed during the recital.

## GOOD FOR ST. PHILIP'S.

## New Church Being Built—Prosperous and Flourishing Community—New School Building.

It may not be "news" exactly that a new church is being built at St. Philip's in the country, but all interested persons will like to know more about St. Philip's and the new church there.

For some years the St. Philip's people have needed a new church, as the present building is far too small and much in need of repairs. The grave yard is not large enough, and can not well be enlarged—unless the site of the present church be included. There are only two acres in the original lot, given by the late Philip Stiles. More land was needed for all the grounds, and for a larger grave yard, so additional adjoining land was sought. Two fine sites on adjoining lands were offered gratis by those who love the Lutheran church, and St. Philip's in particular. A. P. Ruff's offer of three-quarters of an acre was accepted, and the new church will stand where fine cotton or corn or oats once grew.

Why build now? Because we raised some money last year, before the financial depression came; because we can get material and labor for less money, and by far more promptly, at this time; because we have done without a new church too long now; because it is harder to get money for anything when it is plentiful and no one much interested to do when there is but little money and everybody interested.

Leonard Livingston donated picked timber sufficient for the new church. Others offered timber, but all the timber offered could not be accepted. We wish it all could have been. The lumber is much better than we expected in that part of the country.

In spite of low-priced cotton and other discouragements, interest in the new church has grown more and more. But few there are who do not see the need of a new church, and most want to help. It is not uncommon to see ten or twelve wagons hauling logs or lumber or granite or slingles—without cost.

Some two or three weeks ago, by special invitation and arrangement of the church council, at the suggestion of the pastor, the site for the new church was staked off by men who had helped to build the old church. Those invited were Luke Sease, Capt. W. G. Metts, Col. D. A. Ruff, M. L. Dickert, M. L. Wicker, A. H. E. Scheck, Lee Troutman, Baxter Kinard, Frank Lominick and Walter Wicker. Those that came were Walter Wicker, HRO that came were Capt. Metts, M. L. Mcker, Lee Troutman and Baxter Kinard. Some of the other were not well and some may not have received the invitation in time.

The contract was given to W. T. Livingston, of Newberry, and he has most of the framing up at this time. The church will be of beautiful, appropriate and modern design, with Sunday school room and a tower. Its seating capacity will be nearly 500.

There is much talk in the community of a new high school, with modern building, which school seems a necessity—and will be a reality, it is thought. With fine farming lands, handsome homes, good farmers, as there are and will be in that section; with a nice, new church and a modern high school, how well blessed will the next generation be! How happy the passing generation!

Y. von A. Riser, Pastor.

## Clergy's Conference at Prosperity.

A conference of the church officers and missionary committeemen of the Lutheran churches in Newberry county and churches contiguous thereto, will be held in Grace church, Prosperity, Friday, April 2, beginning at 11 a. m.

The ladies of Grace church will provide luncheon at the church for all who come. Brethren, we are expecting you. Come, and be on time.

E. W. Leslie, Pastor Loc.

## Auditor Werts Explains the Situation.

In a letter to Hon. Cole L. Blease, who was then governor of the State, Auditor Eugene S. Werts, under date of December 15, 1914, taking up a former presentment of the grand jury in his case, explains that he did defer completing his books too long by trying to do the work himself, especially since school district assessments had increased the work of the office more than one-third, and hence he had to rush the work and call in help at the last. He explains an instance of leaving off property by stating that W. Josh Linder made his return for 1914 in the name of J. W. Linder, instead of W. Josh Linder, as heretofore.

## Good Articles.

Mrs. E. B. Setzler was hostess for the Woman's club on Thursday afternoon. Roll call was responded to with current events and the subject for discussion, "Physical Culture for Women and Personal Hygiene," was under the leadership of Mrs. Herman Wright, assisted by Mrs. J. M. Kibler and Mrs. J. W. Carson. Mrs. Kibler read an original paper on "Physical Culture for Women," Mrs. Carson an article on "Headaches," and Mrs. Wright one on "The Importance of Mouth Hygiene to General Health," both latter articles being taken from Good Housekeeping.

## DOCTORS SAID HE HAD DROPSY

Some time ago I had an attack of grippe which finally settled in my kidneys and bladder. I doctored with the doctors and they claimed I had dropsy. I tried other remedies and got no relief from any of them. My condition was such that I was unable to work for about two months and the annoying symptoms caused me a great deal of trouble and pain. I was hardly able to turn over in bed. Seeing one of your Almanacs, I decided to give Dr. Kilmer's Swamp Root a trial and after taking several bottles was able to resume my work again. I can not say too much in praise of your Swamp Root as the results in my case were truly wonderful.

Yours very truly,

ROBERT BALLARD,  
Mansfield, Pa.
